| PROFESSIONAL SUMMARY    | Motivated and adaptable data enthusiast with a strong foundation in <b>Python</b> , <b>SQL</b> , <b>Power BI</b> and <b>Excel</b> . Demonstrated ability to collect, analyze and visualize data through various projects. Eager to leverage technical expertise, curiosity in AI and automation to drive data-driven strategies in a dynamic environment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                |  |
